

Foundation investment principle

Foundation value-add activity

Outcome within the Foundation's sphere of control Outcome within the Foundation's sphere of influence

The Barnardo's Foundation contributes to each of Barnardo's four corporate objectives

Sphere of control

CYP & families involved feel more empowered & the initiatives they inform are more relevant More effective collaborations between funders, statutory bodies & voluntary sector organisations External trusts & foundations show more interest in & make greater commitments to co-investment

More co-investment

secured, enabling

'recycling' of the Foundation's

voluntary funds

Systems supporting CYP are better joined-up & have greater long-term stability

Larger shared

evidence base to

inform practice across Barnardo's thematic &

geographic areas

Increased uptake of evidence & learning by external bodies, improving wider practice & policy More inclusive practice makes Barnardo's better equipped to serve minoritized CYP & families

Long-term goal

Investment of voluntary funds contributes to better outcomes for more CYP by working to build Stronger Families, Safer Childhoods and Positive Futures
